ORDER OF BATTLE INFORMATION, CZECHOSLOVAKIA (U)

Introduction

This report contains fragmentary information on a motorized infantry regi- 50X1-HUM  
ment and an unidentified ammunition dump.

Listed below are the names and geographic and UTM coordinates (where available)  
of locations used throughout this report. Coordinates are not shown for well-  
known locations.

LOCATION	GEOGRAPHIC	UTM
BOR	49 10N 13 21E	UQ 8047
ZAM KOZEL	49 40N 13 31E	UR 9303

UNIT DESIGNATION	SUBORDINATION	LOCATION	CO AND REMARKS
U/1 Motorized Infantry Regiment	Unknown	BOR	The commanding officer was Major or Lt Col

 50X1-HUM

KOTARA, (fnu). The regiment was in a casern a few kilometers west of BOR and  
about 800 m northwest of Highway 5 leading to WAIDHAUS 50X1-HUM  
50X1-HUM

the organization was triangular. Regimental headquarters and the three bat-  
talions were all in the same casern  
The regiment had about 12 tanks, T-34's or T-44's,  
which were parked in the woods west of the casern. 20 50X1-HUM  
Praga V3S trucks, which were the prime movers for the unit's 57-mm anti-tank  
weapons, and 20 Tatra 805's. In addition to the trucks, the regiment also  
had about 20 old German armored personnel carriers, and an unknown number  
of 120-mm mortars M-1953 50X1-HUM

the mission of the unit was to support the Czechoslovak Border Guard.

U/1 Ammunition Dump	Unknown	Unknown	ZAM KOZEL	The commanding officer was an unidentified captain.
			(See Annex A.)	

 50X1-HUM

The detail loaded about five Praga V3S trucks with assorted  
ammunition.

The ammunition was stored in concrete bunkers, and  
all of the types of ammunition were stored in each bunker. The ammunition  
was in wooden boxes and rested on lumber which allowed air to circulate under  
the stacks. The stacks were arranged in rows from the front of the bunker to  
the rear, with a walkway between stacks. Each stack contained a different  
type of ammunition. The only instructions received by the detail were to  
load so many cases from each of the stacks.

Legend to Annex B

1.  These bunkers and all the others were of concrete construction of unknown thickness and were surrounded by a 2-m-high earthen abutment.
2. Guard shack containing a small office for the sergeant of the guard and 12 bunks where 2 reliefs could sleep
3. Guard posts. The guards had no lights and were required to patrol their area until they made contact with the guard on the adjoining post. The guards were required to shout halt only once. If the command was not followed, they were authorized to shoot.
4. Emergency exit gate
5. Barbed-wire fence, about 3 m high, enclosing the ammunition dump
6. Heavy forest
7. Entrance, with drop-type barrier

**CONFIDENTIAL**
